Scrubbis Hull Scraper Set
Innovative and easy to use Scrubbis Hull Scraper cleaning set that allows you to clean the entire hull while the boat is in the water. It uses the head buoyancy (2 Kg) in order to apply pressure through scrapers on the hull. You can easily remove algae, fouling, molluscs and crustaceans with a simple handle movement.
The set includes:
A handle with L extension
An extendable handle (up to a total of 320 cm)
A Standard head with scrapers.
In case of hulls with a large amount of algae and dirt, it is recommended to use the Groovy accessory head before the cleaning with the Standard head.
